Subject: Laidlaw Biomass Project

Mike, I wanted to let you know that I will not be a participant at the final hearing on August 23rd. I feel the issues we have an interest in have been addressed and we really have no more to add to the review process. While I would like to remain on the mailing list for information, I do not envision being an active participant from this point forward.

I have enjoyed working with you and admire how you handle the process.

Regards,

Tom
